Have your packing slip ready for reference.

Customer Service & Warranty Information

Dear Educator,

Thank you for purchasing the Tech Tub²®. We hope it meets your expectations and you and your students enjoy using it at your school.

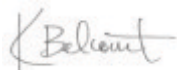

Every day we see and hear stories of teachers going above and beyond to help students thrive. Thank you so much for all you do – you are awesome, and you make a difference.

Thank you for inspiring us.

If you have any questions, concerns or ideas on how we can improve please let us know by contacting our Customer Service team at 1-800-267-8494 or info@copernicused.com.

Happy teaching,

Kaylyn Belcourt, President

Register your Product

Registering your warranty ensures we have all the information we need to make any future warranty claims quick and easy. Please visit www.copernicused.com/warranty and complete the form within 10 business days from product assembly. By registering your product, you will be entered into a draw to win Copernicus product.

Make a Warranty Claim

We offer a Lifetime Warranty on almost everything we make. Please call **1-800-267-8494** or email info@copernicused.com to start your warranty claim. Proof of purchase will be required upon warranty claim (i.e. copy of invoice).

Tips for Assembly

Before You Begin:

- Lay out and identify all of the included parts.
- The hardware has been packed according to step.
- Read the assembly guide over once to familiarize yourself with them.

As You Assemble the Unit:

- Follow the steps in sequence.
- Before beginning each step, find the part(s) that you need for that step.
- The title of each step states what you will be doing. Review the text and the pictures as you build the unit.

Watch for This Helpful Symbol:

The symbol denotes a step needing extra attention to ensure it is done correctly.

Important Information! Warning!

Please read the warnings below for important safety information regarding your product. Failure to read these warnings or to follow the instructions below could result in personal injury or damage to your product that could void your warranty.

Small Parts

In its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

Adult Supervision

This product is to be used under the supervision of an adult.

No Maintenance

This product does **NOT** require maintenance. Repairs should only be performed by authorized personnel. Please contact customer service if repairs are required.

Climb Hazard

Do not climb on, hang from or suspend objects from any components of your product unless otherwise specified.

Indoor Use Only

This product is intended for indoor commercial use only. To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. The internal components are not sealed from the environment.

Power Strip Specifications

Read your power strip electrical specifications. Only plug in devices that are approved for use with this power strip. Connect the supplied power strip directly to a wall outlet. **Do not connect to another power strip or use an extension cord.** Turn off power strip before unplugging. Unplug when not in use.

Electronic Equipment

Read the electrical specifications of any electronic equipment you are using with your Copernicus products. Failure to read these specifications and follow their instructions could result in damage to your equipment or personal injury.

Cable Trip Hazard

Ensure that any cables extending across the floor to your product are properly bundled and marked to avoid tripping or falling which may lead to personal injury.

Electrical Shock

Do not install or use the electrical components of this unit during a lightning storm.

Tech Tub2[®] Trolley Setup

STOP!

If you purchased the Tech Tub2[®] Trolley you will need to mount your Tech Tub2[®] onto the Trolley Frame first, before proceeding with this assembly guide. Please look inside the Trolley Frame box for the assembly guide that explains how to do this.

If you have not purchased the Tech Tub2[®] Trolley, please proceed to the next page to continue setting up your Tech Tub2[®].

1

You will need: (Not to Scale)

Install Device Positioning Rail into all shelves

- ! This part helps keep smaller devices away from the cable management area. If your devices are wider than 8.66in (220mm), please skip this step.
- Device positioning rail can be installed or uninstalled at any time.

2

Actual Size:

(E) M5 Square Nut
x4

You will need: (Not to Scale)

Install nuts into one shelf

Ensure nut is inserted fully into slot in shelf

3

Actual Size:

F

M5 Screw
x4

You will need: (Not to Scale)

Shelf
(with M5 square nuts installed from previous step)
x2

Install shelves with nuts installed into tubs

- 1 Install shelves in middle position in both tubs (aligned with holes for screws)
- 2 Insert screws (both sides) but do not fully tighten until all shelves are installed

4

You will need: (Not to Scale)

Shelf
x7

Install remaining shelves

- 1 Install 4 shelves in top tub, leaving three empty slots between each shelf
- 2 Install three shelves in bottom tub, leaving two empty slots between each shelf

Now fully tighten all 4 screws holding middle shelves in place

Model Specific Instructions

Steps 5-9 are for Power Strip setup (FTT1100 or FTT1112)

Step 10 is for USB Hub setup (FTT1100-USB)

5

You will need: (Not to Scale)

Power Tray with Shield
x1

Power Strip Mounting Plate
x1

FTT1100
FTT1112

Install Power Strip Mounting Bracket onto Power Tray

① Insert side with four pegs into keyholes

② Slide back until you hear a CLICK!

You will need: (Not to Scale)

10-Outlet Power Strip

x1

Install Power Strip in Power Tray

- ① Loop power cable under power strip as shown
- ② Fit power cable between ribs and Power Strip Mounting Plate
- ③ Route power cable around hook and out through back of tray

- ④ Fit 2 keyholes on Power Strip over 2 pegs on Power Strip Mounting Plate

- ⑤ Slide Power Strip back to secure it

For power adapters like this proceed to the next step

Power adapter cable management

- 1 Wrap device power cable around power adapter leaving 20" of cable free

- 2 Wrap wall outlet power cable around power adapter leaving 6" of cable free

- 3 Secure cables around adapter using provided hook and loop straps

! Repeat above steps for all remaining power adapters

8A

FTT1100
ONLY

! If your power adapter is too wide to fit on the power strip please proceed to STEP 9.

Plug in first power adapter

- 1 Plug first power adapter into power strip
- 2 Run cable to front of tray, leaving excess cable hanging out

Power Brick Adapter

! Start at back of Power Tray on bottom row of outlets

OR

Wall Plug Power Adapter

(including USB Power Adapters)

! Start at back of Power Tray on bottom row of outlets

! If your power adapter is too wide to fit on the power strip please proceed to STEP 9.

Plug in remaining power adapters

- 1 Plug 4 power adapters into remaining outlets on bottom row of power strip
- 2 Plug 5 power adapters into top row of outlets on power strip
- 3 Run cables to front of tray, leaving excess cable hanging out

9
FTT1112
ONLY

! Follow this step
for larger power adapters
that won't fit on the
10 outlet power strip

Adapter extension
cables
x10

Plug in power adapter to extension cords, and plug in extension cords to power strip

Route device charging cables to front of Power Tray as shown

! If your power adapter is too
wide to fit on the power strip
but you did not order an FTT1112
please contact customer service
to order these extension cords.

Copernicus Customer Service:
1-800-267-8494. Monday - Friday 8:30am - 4:30 pm EST.
Email our Tech Support Service at info@copernicused.com

10

FTT1100-USB
ONLY

You will need: (Not to Scale)

USB Hub
1x

Power Cord
x1

Setup USB Hub

- 1 Place USB Hub into Power Tray.
- 2 Route power cord around hook and out through back of Power Tray. Plug cord into back of USB hub.

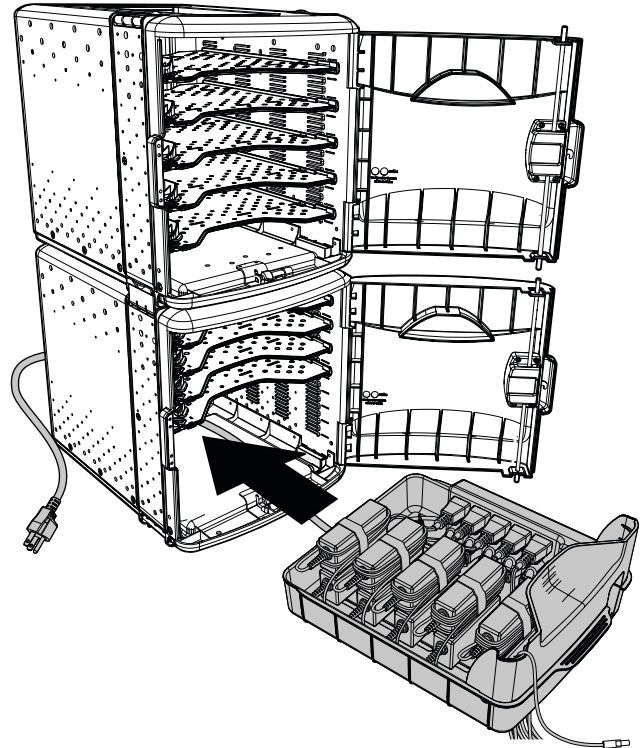

- 3 Plug USB cables into USB Hub
- 4 Run USB cables to front of tray, leaving excess cable hanging out.

Position Power Tray for Cable Management

- 1 Feed power strip cable through hole in back of tub

- 2 Partially slide Power Tray into tub (leave a gap as shown below)

Feed first cable through opening between tubs and pull it up to top shelf

! The process is the same for USB cables

Feed first cable into cable management clip on top shelf

1 Push cable through first clip

2 Push cable through second clip

3

The process is the same for USB cables

Continue inserting cable into first cable management clip on all remaining shelves

! The process is the same for USB cables

1 Push cable through first clip

2 Push cable to back of opening

! Tuck excess cable into front area of power tray

Repeat Step 12A-12C for each shelf until all remaining cables are clipped into shelves (as shown)

Slide Power Tray into tub

! When pushing the tray in, pull the cable to keep it out of the way of the tray

Insert your devices into Tech Tub²

Push devices in completely to ensure cables don't interfere with door

Device Positioning Rails are removable if you require more space for larger devices. To remove, push on the top edge and rotate up out of holes in shelf. If you wish to discard Device Positioning Rails please recycle them.

Plug device power cable into each device

Plug in Tech Tub²® and turn on power switch

- 1 Plug Power Cable into wall outlet
- 2 Turn on Power Strip via access hole on front of tray

Wrap Power Strip or USB Hub power cable around cable hooks when moving Tech Tub 2®

Connecting Tubs Together

Connect a 6 Device Tub to a 6 Device Tub or a 10 Device Tub

1 Flip up Locking Tab and Open side Flip Locks on lower tub

2 Insert back feet of upper tub into slot on top of lower tub

3 Insert front feet of upper tub into holes on top of lower tub

4 Connect upper and lower tub using side Flip Locks

5 Open the front door of upper tub and slide locking pin through metal tab

6 Close and lock front door of Tech Tub² to secure devices

Surface Mounting Tech Tub²

Lock Tub to surface using Locking Pin

! First, install surface mounting hardware using attached template (stapled to end of this guide) then complete steps below to secure your Tech Tub² onto surface

1 Slide rear feet of Tech Tub² onto the pins

2 Fit slot (front underside of tub) over metal tab

3 Open the front door and slide locking pin through metal tab

4 Close and lock front door of Tech Tub² to secure devices
