Bamboo Double
Sided Art Center

NEW Bamboo Double Sided Art Center

This painting easel has a lower carbon footprint and is made from a renewable resource.

Bamboo is a renewable resource that grows quickly and sequesters carbon, unlike steel which produces carbon. The Bamboo Double Sided Art Center has a natural aesthetic suited for neutral and early childhood environments. It is a collaborative and creative sensory station—a perfect addition to primary classrooms. With two dry-erase painting surfaces and plenty of storage, keeping things clean and tidy is a cinch.

Bamboo Double Sided Art Center (BPC01)

Features:

- Bamboo construction
- 2 removable paint pot trays
- Double-sided dry erase boards
- 5 drying racks
- Includes clips to hold paper in place
- Can be used as standalone items—tabletop/floor easel and drying station

Also available as:

Easel only (BPC02)

Drying rack only (BPC-DR)

Dimensions:

48" H x 27" W x 30" D

Warranty

Lifetime

5 year warranty on the whiteboard

Our finish is a nitrocellulose lacquer. Lacquers are a popular finish type for furniture, and the preferred choice of professional furniture makers. Lacquers provide a clear, durable, and water-resistant finish that protects the base material while also enhancing its appearance.

Bamboo has a higher tensile strength than steel. This means that if you pull on a piece of bamboo and a piece of steel, it will take more force to break the bamboo.

Giving Back

For every bamboo product purchased, Copernicus will make a donation to conserve natural panda habitat through the World Wildlife Fund.

Check out our free Educator Resources about bamboo on our website.
