

iRover²® Height Adjustable Wall Mount (HAWM2)

This height-adjustable wall-mounted flat panel is important for the classroom because it not only saves valuable classroom floor space but can also accommodate students with different physical abilities and needs.

Comes with a UL-approved electric height adjustment system that allows for 17" of adjustment with a convenient wired remote

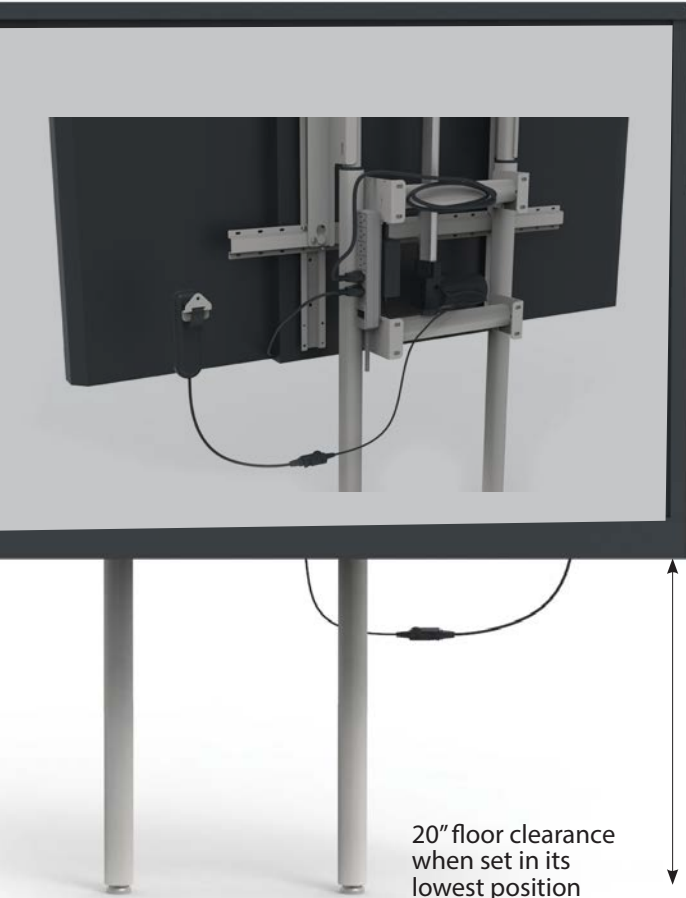

Supports up to 86" flat panels with a maximum weight of 250lbs

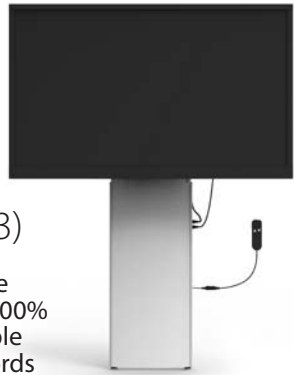

Lifetime warranty (5 year warranty on electric lift)

Dimensions (without flat panel): 78 1/2" H x 35 1/4" W x 8" D

Height Adjustable Wall Mount with Frame Cover (HAWM3)

Reduces waste that might have gone to a landfill. Packaging: 100% plastic-free! Model also available with frame cover to conceal cords and frame.

Stud Mounting Kit for Height Adjustable Wall Mount (HAWM2-SMK)

These steel brackets, specifically made for our Height Adjustable Wall Mount (HAWM2) facilitate the mounting of our iRover2 Carts for Interactive Flat Panels (IFP500) to wood stud walls.

Conversion Kit for Height Adjustable Wall Mount (HAWM2-CK)

By reusing parts of the iRover²® Cart for Interactive Flat Panels, This conversion kit costs less than a brand-new height-adjustable wall mount. Educators can also use this design example to teach students a lesson about circular economies and their impact on the environment.

Conversion Kit for Height Adjustable Wall Mount with Frame Cover (HAWM3-CK)
