

NEW!

Simple Machines Play Center

NEW Simple Machines Play Center (SMPC1)

We're excited to re-introduce our very own STEM educational toy! It's designed from bamboo and ideal for developing brains to explore, create and learn – it's a nod to our history, when our founder developed our first science block kit over 35 years ago! It features moveable ramps, pulleys and a teeter totter for gross motor skill development during early childhood.

Dimensions

28" H x 23" W x 20" D

Warranty

Lifetime Frame

Simple Machines Play Center (SMPC1)

Our finish is a nitrocellulose lacquer. Lacquers are a popular finish type for furniture, and the preferred choice of professional furniture makers. Lacquers provide a clear, durable, and water-resistant finish that protects the base material while also enhancing its appearance.

Bamboo has a higher tensile strength than metal. This means that if you pull on a piece of bamboo and a piece of metal, it will take more force to break the bamboo.

Giving Back

For every bamboo product purchased, Copernicus will make a donation to conserve natural panda habitat through the World Wildlife Fund.

Check out our free Educator Resources about bamboo on our website.
