NEW Bamboo Shelving Unit

NEW Bamboo Shelving Unit

These storage options have a lower carbon footprint than steel alternatives and are made from a renewable resource.

Bamboo is a renewable resource that grows quickly and sequesters carbon, unlike steel which produces carbon. The Bamboo Shelving Unit has a natural aesthetic suited for neutral and early childhood environments.

Bamboo Shelving Unit (BAM1)

Features:

- 3 shelves for storage
- Bamboo construction
- The ideal height for early childhood students and educators to access toys, books and other supplies

Also available with tubs:

Bamboo Shelving Unit with sage tubs (BAM1-S)

Bamboo Shelving Unit with clear tubs (BAM1-C)

Bamboo Shelving Unit with vibrant mixed tub combo (BAM1-VM)

Tub lids can be purchased as a set of 9 (LID-9)

Dimensions:

24" H x 40 ¾" W x 16 ½" D

Warranty

Lifetime

Our finish is a nitrocellulose lacquer. Lacquers are a popular finish type for furniture, and the preferred choice of professional furniture makers. Lacquers provide a clear, durable, and water-resistant finish that protects the base material while also enhancing its appearance.

Bamboo has a higher tensile strength than steel. This means that if you pull on a piece of bamboo and a piece of steel, it will take more force to break the bamboo.

Giving Back

For every bamboo product purchased, Copernicus will make a donation to conserve natural panda habitat through the World Wildlife Fund.

Check out our free Educator Resources about bamboo on our website!
